-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, line 10, it appears "the gear rotates" should be ---the first gear rotates--- to avoid confusion since multiple gears have been set forth. Also, in line 12, there is no antecedent basis for "said motor gear". It appears "motor" should be ---transition---.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1744

Claims 3 and 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hirabayashi (U.S. patent 5,099,536).

The patent to Hirabayashi discloses the invention as is claimed. Note figure 1 which shows an electric toothbrush (10) having a housing (30) which acts as a handle, motor (32) mounted in said housing, switch (92) for operating said motor, motor shaft (38) mounted in said housing and connected to the motor for rotation thereby and toothbrush member (20) for coupling with said housing. The toothbrush member is configured to be inserted into the housing and has a drive shaft (54) therein for coupling at one end thereof with the motor shaft. At the other end of the drive shaft a transition gear (64) is provided for meshing with a first gear (66) which meshes with a second gear (67). The first and second gears rotate first and second shafts (66a,67a) which rotate brushes (74), respectively.

Allowable Subject Matter

Claims 1 and 2 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
